Introduction

WordPress plugins are essential tools that enhance your website's functionality. Plugins make it easy to customize your site without any code. The simplest way to install a plugin is through the WordPress Plugin Directory, which contains thousands of free plugins.

This guide will walk you through how to **install and activate a plugin** using **WordPress plugin directory.**

Step One: Access the Plugin Directory

- 1. Login to your WordPress dashboard.
- 2. On the left sidebar, click on **Plugins** > **Add New Plugin**.

🛞 😤 Sitemaker Academy 📮 0 🔸 New Howdy, Sitemaker Academy 🔳							
2 Dashboard	Dashboard					Screen Options 🔻	Help ¥
Home Updates	Site Health Status	~ ~ *	Activity	~ ~ *	Quick Draft		~ ~ *
 ≁ Posts 9) Media I Pages 	No information yet	Site health checks will automatically run periodically to gather information about your site. You can also <u>yair the Site Health</u> <u>screen</u> to gather information about your site now.	No activity yet!		Title Content What's on your mind?		
Comments	At a Glance	~ V *					
Plugins	Installed Plugins	wenty Twenty-Five theme.			Save Draft		
 Users Tools 					WordPress Events and News		~ ~ *
 Settings Collapse menu 							

This will bring you to the WordPress Plugin Directory.

Step Two: Search the Plugin Directory

- 1. Go to the **search bar** at the top right side.
- 2. Type the full name, partial name, or function of the plugin you are looking for.
- 3. Press Enter.

WordPress will display relevant results along with ratings and descriptions of the plugins.

Step Three: Install the Plugin

1. Once you find the plugin you want, click the **Install Now** button next to it.

WordPress will automatically download and install the plugin on your site.

Step Four: Activate the Plugin

After installation, the Install Now button will change to Activate.

1. Click Activate to enable the plugin on your website.

Step Five: Configure the Plugin (if Needed)

Some plugins work immediately after activation while others require configuration. After successful installation, the plugin should appear in the installed plugins list.
